

Visiting our local community

explore our local area

3 - 4 years old, Chase Lane Nursery Unit - LONDON (ENGLAND)

Each week, groups of children from Chase Lane Primary School & Nursery Unit enjoy exploring our local area. We visit the Community Library and Chase Lane Park, leaving traces to show we were there. The children have built a strong and positive relationship with the physical environment and the people within it. As they have become increasingly familiar with their local area, the children discuss their views and feelings about it with a greater depth, understanding and maturity.

I see it! It's the bird's nest. Look!

The children visit the South Chingford Community Library every week. They share books, draw pictures and create displays to show other visitors how they enjoy using the library. The library volunteers tell us that they look forward to the children's visits. The children re-visit the library with their families.

At the local park, children leave traces to show that they visited the area:

We can show people which way to go...

Through our involvement in the community, we were invited to help decorate our Community Christmas tree.
